chrysalis butterfly

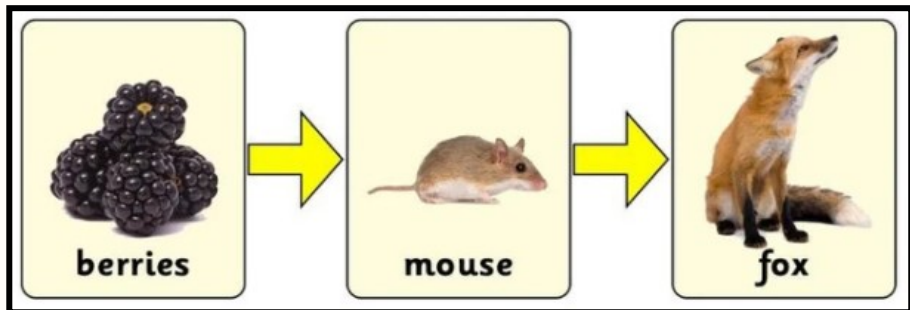

living

dead

non-living

- I can talk about how I know if something is alive, dead or non-living.
- I know that humans need water, food and air to survive.
- I can talk about the human life cycle, including the words baby, child, teenager, adult and elderly.
- I can talk about how we change as we grow.

- Food chains show us how each living thing gets food / what it eats.
- A predator is an animal that hunts and eats another animal.
- Prey is the animal that is being hunted and eaten by another animal.
- Plants are at the beginning of every food chain.
