Key knowledge

plants

leaves

- Trees begin to grow again. New leaves appear as the weather gets warmer and there is more sunlight.

- Animals come out of hibernation.
- Many animals have their young in spring - lambs and chicks.

- ### Weather
- The weather can be dry or rainy - April showers.
 - In spring it begins to get warmer.
 - There are more hours of daylight than in winter.

- Plants can grow from seeds or bulbs.
- Some plants are flowering plants and some are not.
- We can eat many plants, and can name some.
- Weeds are wild plants that grow in places people don't want them to.
- A wild plant grows where the seeds land. It doesn't need to be planted or cared for.
- Plants need water, food and light to survive.

- Some trees keep their leaves all year round. These trees are evergreen. Other trees lose their leaves in the autumn. These are deciduous.
