Common Road Infant and Nursery School

Flying High Together

Common Road Infant and Nursery School Accessibility Plan

Introduction

This plan has been guided by Schedule 10, relating to Disability, of the Equality Act 2010 and the principles of the Disability Discrimination Act 1995 (DDA) as amended by the SEN and Disability Act 2001. As defined by the Equality Act, we understand a person with a disability to be identified as follows:

‘A person who has a physical or mental impairment that has a ‘substantial’ and ‘long-term’ negative effect on your ability to do normal daily activities’.

Physical or mental impairment includes sensory impairments and also hidden impairments. In the DDA ‘substantial’ means ‘more than minor or trivial’.

‘Long term’ means ‘has lasted or is likely to last more than 12 months.’

This definition is broad and includes children and adults with a wide range of impairments, including learning disabilities, dyslexia, autism, speech and language impairments, Attention Deficit and Hyperactivity Disorder (ADHD), diabetes or epilepsy, where the effect of the impairment on the pupil’s ability

to carry out normal day-to-day activities is adverse, substantial and long-term. All of those with cancer or surviving cancer, HIV or Multiple Sclerosis are now included from the point of diagnosis.

The test of whether the impairment affects normal day-to-day activity is whether it affects one or more of the following:

- Mobility
- Manual dexterity
- Physical co-ordination
- Continence
- Ability to lift, carry or otherwise move everyday objects
- Speech, hearing or eyesight
- Memory or ability to concentrate, learn or understand
- Perception of risk of physical danger.

Our planning addresses the following areas:

- **Physical facilities** – addressing any alterations that may be required to the structure of the building or site to secure access for pupils, staff, parents and visitors
- **School curriculum** – including our provision for teaching and learning, the wider curriculum, extra-curricular activities and school visits.
- **Support services** – access to services within and external to the school to support families where a disability is identified
- **Awareness** – building awareness of staff through training and development and heightening children's awareness of issues related to disability
- **Communication of information** – how information is communicated within school and to a wider audience and supporting access to communication for families with a pupil or parent identified as having a disability.
